-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3751

1. Applicant's election without traverse of Species I in the reply filed on August 07, 2006 is acknowledged. Accordingly, claims 7 and 8 are withdrawn from further consideration pursuant to 37 CFR 1.142(b).

2. The disclosure is objected to because of the following informalities: Page 3, line 1 and page 4, line 10, reference numeral "10" denotes different elements; and page 4, line 6, "114,214" apparently should be --112,212--.

Appropriate correction is required.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made:

4. Claims 1-6, 9, 11 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Reinert.

Re claim 1, the Reinert reference discloses a structure comprising: a first region 16,17; and a second region 14, as claimed. Claim 11 is redundant to claim 1 insofar as the same product is set forth.

5. Claims 10 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reinert and Webster.

Although the structure of the Reinert wall fixture does not include a third region, as claimed, attention is directed to the Webster reference which discloses an analogous wall fixture which further includes a structure 10 having a third region (receiving 13,14). Therefore, in consideration of Webster, it would have been obvious to one of ordinary skill in the wall fixture art to associate a third region with the Reinert structure in order to enable screw attachment.

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

The Duvall et al. and Carlin references disclose various wall fixtures having features in common with the instant invention.

7. Applicant is referred to MPEP 714.02 and 608.01(o) in responding to this Office action.
